PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore,

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

APPEAL No. 15 OF 1910-11.

Appellant		Respondent
Krishnappa, retired taluk sheristadar, residing in Siddikutta, Bangalore City.	*Vs.*	Venkatasubbiah, retired record-keeper, Gulur village, Tumkur Taluk.

Subject.

Appeal against the order of the Revenue Commissioner in Mysore, confirming the revenue sale of Survey No. 32 of the Gulur village in the Tumkur Taluk.

Facts of the case.

On account of arrears of revenue of Rs. 147-2-2 due by the appellant, the marginally noted survey number which was in his khate, was, after due notice to him, forfeited and advertised for sale. On 22nd October 1908 the Sheristadar of the Tumkur Taluk conducted the sale under the orders of the Amildar, when the property which had been estimated at Rs. 400 was knocked down to the respondent for Rs. 50.

2. One Narasimhamurti Rao, on 27th October 1908, submitted a petition to the Amildar and the Sub-Division Officer praying for the cancellation of the sale on the ground that the land was mortgaged to him and that the notice of sale issued to him by the Amildar was received by him on the evening of the date of sale. The appellant also prayed for the cancellation of the sale, stating that the question of levying the dry assessment on the entire extent of the survey number in question has been long pending in the District Office and that the arrears for which the land was sold have to be written off the accounts. The Amildar recommended that the price realised at the sale being far below the estimated value of the land and not covering even the arrears due from the khatedar, the sale might not be confirmed. The Sub-Division Officer approved of the recommendation of the Amildar and directed that the land be resold.

3. On appeal by the respondent the Deputy Commissioner confirmed the order of the Sub-Division Officer. The respondent then appealed to the Revenue Commissioner, who observed that, even in Civil Court auctions sales are postponed when the bids are grossly inadequate, and the failure on the part of the taluk Sheristadar to adjourn the sale was a serious omission which was at once rectified by the Amildar and came to the conclusion that there was no reason for him to interfere with the order of the Deputy Commissioner. But at the same time he remarked that the respondent who had deposited the sale amount and against whom there was no reason to presume fraud or collusion should not be made to suffer, and he directed that the appellant should deposit in the Taluk Treasury within three months from the date of his order, Rs. 2½ to be paid to the respondent as compensation for loss of interest, and that, in default, the sale should be confirmed. The appellant having produced the amount after the expiry of the period prescribed therefor, the Deputy Commissioner solicited orders in the matter. The Revenue Commissioner directed that the terms of his decision be enforced. Accordingly the sale was confirmed and the respondent was put in possession of the land.

4. The appellant then appealed to Government urging that the Revenue Commissioner, having found that the respondent was not entitled to have the sale confirmed, should not have ordered the payment of compensation to the respondent, inasmuch as, under Government Order No. R. 3275—R. M. 494-05-3, dated the 17th September 1906, the latter can get a reasonable interest on the purchase amount deposited by him only when the sale is cancelled as a concession to the khatedars and others interested in the land sold.

Land Revenue, dated 26th June 1911.

5. The appeal came on for hearing on the 26th of May 1911 when both parties were present.

Decision.

6. The Assistant Commissioner, the Deputy Commissioner and the Revenue Commissioner all agree that the sale should be set aside. The Revenue Commissioner, however, inserted a rider that compensation should be given to the purchaser, the respondent, in the form of interest and that the sale would be confirmed unless the appellant deposited Rs. 2½ in three months. The latter apparently did not accept the condition and failed to deposit the money. The Revenue Commissioner directed that the original order should be carried out by the sale being confirmed.

7. There being no law to impose the condition of payment of compensation to the purchaser in this manner, the condition should be disregarded. Even in cases under Section 310-A of the Civil Procedure Code (a provision which does not find a place in the Revenue Code) compensation is payable only in cases in which the sale is not objected to as being invalid. The Revenue Commissioner having declared the sale invalid on other grounds, the condition imposed by him, though quite fair in itself, cannot be held operative so far as to invalidate the order setting aside the sale by reason of non-compliance therewith.

The order of the Revenue Commissioner confirming the sale is therefore reversed.

I. Para 5 of the Government Order No R. 6681-90—L. S 24-09-2, dated the 9th April 1910, requesting the Revenue Commissioner and the Superintendent of Revenue Survey to submit half-yearly reports on the co-operation of the Revenue officers with the Survey Department in all stages of the resurvey operations and on the improvement shown on the condition of boundary marks

II. The following letter No. 68, dated the 5th December 1910, from the Superintendent of Revenue Survey, submitting his report accordingly:—

"As called for in para 5 of Government Order No R 6681-90—L. S. 24-09-2, dated 9th April 1910, I have the honor to submit this report for the half-year ending 30th June 1910, on the condition of the boundary marks and the co-operation of villagers met with by the field establishments of this Department during the progress of resurvey operations.

2. During the last field season, measuring operations were conducted by two establishments, B and C, under Messrs. K. G. Shamanna and D. Srinivasa Rao respectively The former worked in parts of Tarikere, Tirthahalli, Nagar and Arsikere Taluks, while the latter was employed in the Taluks of Gubbi, Koppa, Chiknayakanhalli, Kadur and Hosdurga. The number of days spent by the Field Establishments in the inspection and restoration of boundary marks affords us the test to judge of the extent to which the progress of resurvey was retarded by this item of work and of the condition of the boundary marks.

3. The B Establishment had 8,011 days available for work during the last field season. Out of these, 3,921 days or 48·95 per cent had to be devoted to the inspection and restoration of the boundary marks The major portion of the work consisted in replacing missing boundary marks, which takes away a good deal of time and labor, as the identification of their correct position involves the measurement of the fields in accordance with old tippans The C Establishment similarly devoted 41·09 per cent of the working days under this head, the number of marks missing being so large as 6,637 bandhs and 18,415 stones and the bandhs out of repair numbering 7,061 Making due allowance for the legitimate number of days required for boundary mark inspection, the inference to be drawn from these facts is naturally that the boundary marks were in a very neglected condition and had not been maintained properly. This unsatisfactory state of things is, as observed by one of the Field Officers, certainly not the result of neglect in any particular year or by any particular officer, but has been brought about by laxity of supervision and continued neglect for a series of years Even with a vigorous enforcement of the rules on the subject, it will take years to put boundary marks in order, and till then, the Survey Department cannot help commenting on the chief obstacle in the progress of resurvey work The Government have repeatedly emphasized the importance of the proper maintenance and inspection of boundary marks and the Revenue Commissioner has issued elaborate instructions in the matter for the guidance of the Revenue officers. Judging from the results, however, I am constrained to observe that greater earnestness and exertion are required on the part of the Revenue officers. The condition of the marks being almost the same in all the localities dealt with by our Field Establishments during the last year, I am unable to commend or deprecate the work of the local officers of any taluk, as there is no basis for comparison.

4. Coming now to the question of co-operation secured from the villagers, it is found that non-co-operation was met with in many villages by both the establishments, which in consequence lost a good number of working days. In some of the malnad villages where population is sparse, in bechirakh villages and in inam villages, where there are differences between the Inamdar and his ryots, there are reasons for non-co-operation. Leaving such cases out of consideration, the co-operation for survey work during the last year was generally good, except in the Kadur Taluk, about which Mr. D. Srinivasa Rao reports as follows:—

> 'Of the taluks in which resurvey was carried on, Kadur Taluk shows the highest percentage of Harkat days. I am sorry that there was want of due co-operation for survey work in this taluk, and more especially in Kasaba Birur, which for the same reason had been left incomplete during the last field season and which was only completed this year with the greatest difficulty and trouble'

5. *Reclassification.*—The work of reclassification during the last field season was carried out by Mr. C. Rajagopalachariu and extended over the whole of the late Gudibanda Taluk, the north and north-east portion of the Maddagiri Taluk and part of the Belur Taluk.

The condition of the boundary marks in these tracts and the co-operation met with from the villagers are reported by that officer to be fairly satisfactory"

Revenue (Land Survey), dated 10th June 1911.

III. Correspondence ending with the Revenue Commissioner's letter No. 9032, dated 6th March 1911, forwarding for information a copy of his circular No. 9023-30, dated 2nd March 1911, to the Deputy Commissioners of Districts insisting on their strict obedience to the instructions on the subject contained in his previous circulars Nos. 4167-74-3 and 14480-7, dated 26th October 1906 and 29th June 1908, respectively.

No. R. 6678-87—L. S. 23-10-6, DATED BANGALORE, 10TH JUNE 1911.

ORDER THEREON.—Recorded.

2. The Survey Superintendent's letter discloses a state of things yet far from satisfactory. Nearly 49 per cent of the working days of the B Establishment and 41 per cent of those of the C Establishment are large proportions of time of resurvey officers to devote to the inspection and restoration of boundary marks. The following extract from a statement prepared in the Revenue Commissioner's office shows the extent to which each of the taluks concerned seems to have contributed to this expenditure of time :—

Name of taluk	Number of working days taken to set right bandhs found out of repair	Number of Harkat days	Remarks
Tarikere	862	31	Resurveyed by the B Establishment.
Kadur (late Tarikere)	479	2	
Tirthahalli	2,046	57	
Nagar (late Tirthahalli)	69	3	
Arsikere	523	...	
Total ...	3,979	93	
Kadur	18	36	Resurveyed by the C Establishment.
Chiknayakanhalli	95	41	
Koppa	161	225	
Gubbi	130	112	
Hosdurga	21	8	
Total ...	425	422	
Grand Total ...	4,404	515	

Making all allowance for the difficulties arising from accumulated neglect of work in the past, it cannot be said, judging from the foregoing figures, that the Amildars and the Deputy Commissioners concerned have done their utmost to facilitate the expeditious progress of resurvey work. There is thus scope for much improvement in the near future.

Letter No. 10964, dated the 21st April 1911, from the Revenue Commissioner in Mysore submitting the following review on the results of the census of the agricultural stock held in January 1911 :—

OFFICIAL MEMORANDUM.

Subject.—Statements showing the results of the census of agricultural stock held in January 1911, received from the Deputy Commissioners of Districts.

Government were pleased to direct in their Order No. R. 1918-26—Agri. 20-09-3, dated 1st September 1909, that the 3rd Quinquennial census of agricultural stock should be held in conjunction with the Preliminary General Census of 1911; and instructions for the guidance of enumerators and supervisors for taking the census were issued in Government Order No. R. 403-44—Agri. 20-09-7, dated 23rd July 1910. In this office No. 8155-62, dated 5th—10th February 1911, the Deputy Commissioners were requested to submit, together with the talukwar abstracts of the district, a review on the results of the census statistics. The following communications were accordingly received from the districts :—

Letter No. 618, dated 7th March 1911, from the Deputy Commissioner, Bangalore.
" No. 7747—452, dated 24th March 1911, from the Deputy Commissioner, Kolar.
" No. 452, dated 1st—2nd March 1911, from the Deputy Commissioner, Tumkur.
" No. 593, dated 23rd February 1911, from the Deputy Commissioner, Mysore.
" No. 82, dated 16th February 1911, from the Deputy Commissioner, Hassan.
" No. 576, dated 21st February 1911, from the Deputy Commissioner, Shimoga.
" No. 455, dated 26th February 1911, from the Deputy Commissioner, Chitaldrug.

2. The annexed statement exhibits the results of the said census as compared with the statistics of 1904-05 as well as the figures ascertained by the Khaneshumari of the year 1909-10.

3. Comparing first the figures of the present census with those of the Khaneshumari of 1909-10, a great disparity is noticeable under almost every head, suggesting the inference that the Khaneshumari might have been perfunctorily made. It is, however, explained that statistics of inam villages do not find a place in the annual Khaneshumari. But this does not fully account for the difference. For there are 2,314 inam villages of an area of about 1⅓ million acres as against a total for the State of 19,420 villages and nearly 19 million acres. Taking the former to represent roughly about 1-15th or 1-16th of the resources of the State, this omission will account for only about 2 out of 5 lakhs decrease under bulls and cows. Much of the difference must therefore be attributed to the imperfect enumeration of agricultural stock at the annual Khaneshumari and the district officers will therefore do well to insist upon greater accuracy in the annual Khaneshumari enumeration. It is therefore useless to examine further the results of the census as compared with the Khaneshumari.

4. Coming next to the figures of the census of 1910-11 as compared with those of 1904-05, it is very satisfactory to note that there has been a general increase under all classes except "horses and ponies" which shows a small decrease of 1,596 for the whole State. There can be no doubt that in the two favourable seasons after the distress of 1908-09, there has been a great improvement in the condition of the agricultural stock. As regards the falling off in the number of horses and ponies, there is some force in the remark of the Deputy Commissioner of the Tumkur District that the high cost of maintaining horses and ponies seems to be in the way of their increase. But as most of these ponies are of the class of village *Tatu*, the more plausible reason would seem to be the expansion of cultivation and the closer reservation of forests and date groves. It is also not unlikely that the reduction in the military savars as a class whose favourite occupation a generation ago was pony-breeding, may also have had something to do with this.

5. Naturally the increase is largest under 'sheep and goats,' being 44·6 and 42·1 per cent, respectively, as they multiply rapdily in favourable seasons, especially after a drought. There has been a satisfactory increase in the number of bullocks and cows, the percentages being 11·1 and 18·2 respectively. The larger per cent in the rate of increase may be accounted for as due to a larger number of bulls and bull calves being annually exported to the neighbouring British districts.

The increase in buffaloes, both bull and cow, is very moderate being only 5 per cent. There is reason to fear that the mortality in this class during the famine of 1908-09 must have been rather heavy as buffaloes are less hardy than cows and cannot stand heat and drought long.

Revenue (Agriculture), dated 10th June 1911.

The increase on the other hand under 'youth stock' is very low, being only 4,815 for a total of more than 12 lakhs. This is probably due to the loss by death during the drought of 1908-09. This is confirmed in a way by the decreases in all the districts, which suffered from the drought, while Mysore and Shimoga are the only districts which exhibit an increase.

There is a very noticeable excess in the number of carts of nearly 28 per cent. This can be explained only by a general improvement in the agricultural classes and greater need of transport of grains and fodder. The increase in the number of ploughs is very fair and commensurate with that in bulls and the usual proportion of increase of population in Mysore under ordinary conditions.

6. The system of taking the census of agricultural stock once in five years began in 1899 and the percentage of increase since then is noted below :—

Bulls and bullocks	9·5
Cows	13·1
Buffaloes { bull	1·7
Buffaloes { cow	3·2
Young stock	—6·4
Sheep	16·7
Goats	29·2
Horses and ponies	13·9
Mules and donkeys	10·5
Ploughs	12·8
Carts	32·0

These percentages are fairly consistent with the increase noticed in the last quinquennium. But it is not possible to draw positive conclusions as to rates of increase, etc., as the data for comparison are yet insufficient. We shall probably be able to draw more valuable lessons as the statistics accumulate.

No. R. 6659-67—Agri. 44-10-15, dated Bangalore, 10th June 1911.

Order thereon.—Recorded.

2. The figures of this census should be adopted in compiling Table A 4 of the Tables of Agricultural Statistics for the next five years from 1910-11.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Local Boards), dated 29th June 1911.

READ—

Government Proceedings No. Fl. 1000-9—Ml. 164-07-1, dated the 27th August 1907, directing the levy of interest at 4 per cent per annum on deficit balances against the District and Municipal Boards lasting for more than a month.

2. Government Proceedings No. 7387-95—L. B. 130-10-3, dated the 7th March 1911, directing that the above order be held in abeyance pending the issue of separate orders on the subject.

No. 10760-70—L. B. 130-10-4, DATED BANGALORE, 29TH JUNE 1911.

ORDER THEREON.—With a view to furnish the Presidents of District Boards with information as to how the balance to their credit stands at any time, and thereby enable them to avoid deficit balances by deferring optional expenditure, Government are pleased to prescribe the following procedure :—

Rule 76 of the Rules issued under the Local Boards Regulation, II of 1902, requiring that all District Fund payments shall be made by means of cheques should be strictly adhered to in all cases except in reference to charges under A. Public Works and payments made through the Madras Bank, Coutts & Co., or other recognized agencies.

In the case of charges under A. Public Works, the Executive Engineer should send to the Treasury a copy of the monthly statement of Public Works expenditure debitable to the District Funds which he is now sending to the President, on or before the 20th of the month following that to which the expenditure relates and the Treasury Officer should on receipt of this information enter the Public Works expenditure in the President's Pass Book and reduce the District Fund balance of the month concerned.

Similarly in the rare cases in which District Fund payments are made through the Madras Bank, Coutts & Co., or other agencies, the Comptroller should intimate the payments to the President for incorporation in his accounts and to the Treasury Officer for being entered in the President's Pass Book and for reducing the balance. Such transactions as do not pass through the Treasury Accounts may be noted in red ink in the Pass Book, which will thus accurately show the District Fund balances.

2. After arrangements are made to carry out the above instructions, the Government Order of 7th March 1911 read above will cease to have effect and interest will be charged on minus balances in accordance with the Government Order of 6th August 1907.

3. It is observed that debit balances generally occur in the months immediately preceding the one in which the local cess on land revenue is collected and credited to the District Funds. To avoid such balances and to have at the disposal of each District Board sufficient funds to meet all expenses of a normal nature till the local cess on land revenue is credited to the District Funds, it may be necessary to maintain a higher minimum working balance than the one at present fixed, *viz.*, one-eighth of the estimated receipts for the year. The Presidents of District Boards are therefore requested to be so good as to report whether the minimum balance requires to be raised and if so what proportion of the estimated receipts for the year, it should be fixed at.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No. 7866—610, dated the 15th March 1911, from the Inspector-General of Education in Mysore, submitting proposals for working the Tile Industry of the Mysore Industrial School as a separate branch of the school:—

"I have the honor to inform you that at the last meeting of the Committee of the Industrial School, Mysore, it was unanimously resolved that early steps should be taken to separate the tile industry from the other work of the school. The manufacture of tiles for commercial purposes is not at all suitable for an industrial school. The men and boys employed in this industry do not receive a training which would enable them to earn a living as skilled workmen outside the school. On the other hand, a great deal of the time of the Superintendent is taken up in supervising the work of the tile industry, which the Committee consider would be very much more usefully spent in developing other branches in the school. If the tile industry brought in a profit for the benefit of the school, the present system might be defended, but at present it does not pay working expenses and is a constant source of expense to Government.

2. The Committee believe that the industry is doing good to a portion of the community by placing good tiles at reasonable rates within the reach of many people who would otherwise be compelled to use inferior materials in the construction of their houses, and they are reluctant to recommend the closing down of the industry without making an attempt to run it on commercial lines. It is absolutely certain that so long as the business is conducted on the present scale it cannot pay. On the other hand it is not at all certain that it is possible with the present equipment to turn out regularly such a large number of tiles as would make it a paying business, and even if it is possible to do this it is not at all certain that there is a sufficient demand to absorb the tiles so manufactured. In view of the uncertainty regarding these two points, the Committee think that it would be better to try what can be done to develop the industry within the next two years. By the end of that time the Industrial School will, it is expected, be moved into the new building and the question can then be settled finally what is to be done with the tile industry.

3. The Committee considered a proposal brought forward by the Superintendent and approved generally of the scheme leaving the details to be worked out by the Superintendent of the Industrial School and myself. The following modified scheme is the result of our inquiries.

4. At present there are three kilns of the following capacity:—The first has two chambers each capable of holding 2,500 tiles. The second has one chamber capable of holding 3,500 tiles and the third has twelve chambers each capable of holding 350 tiles, so that the total capacity is 5,000+3,500+4,200 or 12,700 in all. It is theoretically possible to have at least three burnings a month which would produce 38,100 tiles per month, and if this could be kept up for twelve consecutive months, 457,200 tiles would be burnt in a year.

5. Careful observations were made by the Superintendent during the course of one burning to form an estimate of the cost and probable profit. He found that it cost Rs. 21 to prepare 1,000 tiles for burning, and the value of the tiles after burning was as follows:—

			Rs. a. p.
700 first class tiles	...	...	24 8 0
200 second „ „	...	...	5 0 0
50 third „ „	...	...	0 8 0
50 breakages	...	...	.... .
	Total	...	30 0 0

6. The cost includes an allowance for supervision, but a portion of the profit will be absorbed in paying the mestri. There will be no actual profit till a sufficient number of tiles has been manufactured and sold to pay for the establishment charges. It is only by increasing the output that the industry can ever be made to pay, and with the object of increasing the output it is proposed to give the mestri a financial interest in the success of the industry by promising him a share of the profit. His present pay is Rs. 80 per month, but this will, at his own suggestion, be cut down to Rs. 50, and at the end of the year he will be given a bonus of five per cent of the amount realized on the sale of all articles made

in the pottery. At present it is estimated, as stated above, that 1,000 unburnt tiles produce burnt tiles of the value of Rs. 30. If he burns 240,000 in this way the value of the product will be Rs. 7,200 and he will receive Rs. 360 if the tiles are sold, which will bring his remuneration up to his present pay. As the present rate of burning is about 10,000 a month, he must double the out put before he gets his present pay. But if he improves the quality of the tiles turned out or increases the quantity beyond 20,000 a month he will share in the profit.

7. It is unlikely that the quality of the tiles turned out can be much improved until a proper chimney is built. A chimney was originally provided in the estimate for the Chamarajendra Institute, but it was subsequently struck out on the understanding that the tile industry is to be developed in the compound of the present Industrial School. It is estimated that a chimney will cost about Rs. 9,000 and of this amount Rs. 3,000 has been included in the budget estimate for 1911-12.

8. No estimate has hitherto been made of the total amount which will be required to bring the pottery into a state of efficiency, but the following are stated to be the full requirements for working the present kilns, including the chimney, but excluding a crushing machine.

I. Capital expenditure included in the budget estimates:—

	Rs.	a.	p.
Roofing tile frames	480	0	0
Flooring tile frames	300	0	0
Racks	720	0	0
Accessories for engine	500	0	0
Chimney	3,000	0	0
Total ...	5,000	0	0

II. Capital expenditure for future budgets:—

	Rs.	a.	p.
Roofing tile frames	240	0	0
Flooring tile frames	200	0	0
Ridge do	200	0	0
Racks	1,440	0	0
Chimney	6,000	0	0
Total ...	8,080	0	0

It will be observed that this estimate makes no allowance for renewal of any of the present equipment and this is an item which must be taken into account in forming an estimate of the future of the industry. One at least of the kilns is not built very substantially and is not likely to last very long. But of course if the business turns out a success these items may be paid out of the profits.

9. If an experiment is to be made in running the industry on commercial lines it is essential that the Committee should be permitted to use the money realised from the sale of tiles. If this concession can be granted I recommend that the following scheme may be given a trial for one or two years. If it fails, the loss to Government will not be greater than it would be if things were allowed to drift as at present, and the business can be wound up when the Industrial School removes to the new building or sooner if necessary. If it succeeds it may be possible to induce some private body or Co-operative Society to take it over. In either case the Industrial School will be relieved of a branch which is rather a hindrance to the proper development of the school.

10. The following are the proposals for working the Tile Industry as a separate branch of the Industrial School:—

(1) With effect from 1st July 1911 the Pottery Section of the Industrial School will form a separate department of the school, under the general supervision and control of the Industrial School Committee. The direct management will continue to be in the hands of the Superintendent subject to the orders of the Inspector-General of Education.

(2) On July 1, stock will be taken of the raw materials and manufactured articles on hand, the raw materials on hand will be taken over by the Committee at the rates prevalent at the time; the manufactured stock, finished and unfinished, will be taken over by the Committee at 10 per cent below the selling price. The amount so fixed is to be regarded as a debt to Government to be settled when this scheme terminates.

(3) A sum of Rs. 11,000 is to be placed at the disposal of the Committee in the Mysore Treasury.

Local Fund and Sanitary (Education), dated 1st June 1911.

This amount will not be an additional grant but forms part of the budget grant to the Industrial School as follows:—

	Rs	a.	p.	
Pottery establishment	1,320	0	0	
Clay and fuel	5,000	0	0	
Scholarship	1,680	0	0	
Temporary wages	3,000	0	0	out of 4,000
Total ..	11,000	0	0	

(4) Out of this amount of Rs. 11,000 the Committee will spend Rs 3,000 in purchasing a crushing machine, and the balance will form the working capital

(5) All sums received from the sale of tiles will be paid into the Treasury and credited to the account of the Committee

(6) The Committee will be responsible for the pay of the mestri and the assistant mestri and all other working expenses including such establishment as the Committee consider necessary for the purposes of the industry The amount now given as scholarships will be included in the working expenses as daily wages.

(7) The pay of the mestri will be fixed at Rs 50 per month instead of Rs. 80 and at the end of the year he will be given a bonus of five per cent. on the amount realised from sales during the year.

(8) If at the end of one year or such further period as shall be fixed by Government it is decided to hand over the industry to a private company, the mestri is to have the first claim to take it over, provided he complies with the conditions prescribed by Government."

No. 9970-1—Edn. 330-10-2, dated Bangalore, 1st June 1911.

Order thereon.—The scheme for working the Pottery Section of the Mysore Industrial School as a separate department of the school is sanctioned tentatively for two years with effect from the 1st July 1911. The conditions set forth in para 10 of the Inspector-General's letter read above are approved with the following addition at the end of clause (3):—"This sum of Rs. 11,000 is also to be regarded as a debt due to Government to be accounted for when the scheme terminates in additions to buildings and plant made out of it, in additions to floating stock and in cash or equivalent to cash in hand."

Letter No 10000, dated 28th March 1911, from the Revenue Commissioner in Mysore suggesting that the practice of sending confidential reports in a single statement or list in respect of all the officers employed in a district be discontinued and that a separate report be submitted about each officer, the remarks about the nature of service rendered by the officer being entered in the superior officer's own hand, and submitting for approval a form for these reports.

No. G. 7252-70—G. M. 258-10-3, DATED BANGALORE, 14TH JUNE 1911.

ORDER THEREON.—The Revenue Commissioner's suggestions commend themselves to Government and they are therefore pleased to direct that a separate report in the annexed form be sent as regards each officer, the entry in column 6 and the opinion of the Head of the Department being recorded in the handwriting of the recording officer himself. The form now prescribed should be used for reports regarding all the officers referred to in the Government Order read above as well as Amildars and Deputy Amildars.

The Superintendent of the Government Press is requested to print and furnish to the Heads of the respective Departments concerned as many copies of the appended form as they may require.

Proceedings of the Government of His Highness the Maharaja of Mysore, General (Miscellaneous), dated 28th June 1911.

No. G. 7526-73—G. M. 261-10-6, DATED BANGALORE, 28TH JUNE 1911.

ORDER.—Government are pleased to direct that the last clause of Government Proceedings No. G. 6024-71—G. M. 261-10-1, dated 20th April 1911, *viz.*, 'and that any leave already given should be cancelled and the official recalled to duty or asked to resign his appointment if he is actually engaged in any of the above pursuits while on leave,' may be cancelled, so that the order in question may apply only to cases arising after the 20th April 1911. Thus modified, the order will read as follows:—

'Instances have not infrequently occurred of Government servants taking long leave with the object of practising the legal or other profession, working as teachers in private schools or carrying on trade, during such leave; and heads of offices are obliged in such cases to make temporary arrangements for the conduct of official business which are necessarily unsatisfactory. Such a state of things detracts from the efficiency of the public service and Government are accordingly pleased to direct that save in very exceptional circumstances, no Government servant should be granted leave, whether with or without allowances, to allow of his practising at the bar or pursuing any other profession or calling.'

Letter No. 5076, dated the 5th December 1910, from the Conservator of Forests in Mysore, stating that the District Forest Officer, Kadur District, has been supplied with only a Swiss Cottage tent and that the want of a rowti and a necessary tent is very much felt by him, and requesting the supply of a rowti and a necessary tent for the use of that officer.

No. G. 7607-54—G. M 65-10-53, DATED BANGALORE, 30TH JUNE 1911.

ORDER THEREON.—A rowti and a necessary tent are not included in the scale of tents given in Article 565 of the Mysore Service Regulations, but Government consider the above scale incomplete without a rowti (servant's tent) and a necessary tent as the bathrooms attached to tents cannot always be used for necessary purposes.

2. The Government of His Highness the Maharaja are accordingly pleased to direct that clause (*a*) of Article 565 of the Mysore Service Regulations beamended as follows:—

"A rowti for servants and a necessary tent will be allowed to each officer."

Proceedings of the Government of His Highness the Maharaja of Mysore, Military, dated 9th June 1911.

READ—

Letter No. 1025, dated the 20th October 1910, from the Military Secretary to His Highness the Maharaja, forwarding a report from the Superintendent, Amrut Mahal Department, on the working of his Department for the year ending 30th June 1910.

No. 3574, DATED 9TH JUNE 1911.

ORDER THEREON.—Recorded.

2. The year opened with a stock of 6,875 head of cattle. There were born during the year 1,473 calves. The number of cattle that died during the year from various causes was 393 and the number of cattle sold was 529. There thus remained on the last day of the year under review 7,424 head of cattle, of which 3,464 were cows and 2,174 female calves, 116 breeding bulls, 45 old and 117 young bullocks and 1,508 male calves.

3. It is satisfactory to note that there were no epidemics of virulent type among the cattle and that fodder was plentiful during the year. As an experimental measure gram was cultivated in some of the Kavals and a sum of Rs. 3,226-5-3 was realized by the sale of the produce harvested. The system of awarding silver and gold bangles as prizes to the herdsmen who took the best care of their herds is said to have given much satisfaction to the herdsmen and is likely to be productive of good results.

4. With reference to the half-bred merino sheep, at the commencement of the year there were 288 sheep and 97 lambs were born, 19 ewes and 1 merino ram were purchased, making a total stock of 405 head of sheep. Of these 45 died and 32 were sold leaving 328 sheep at the close of the year.

Military Secretary.

Proceedings of the Government of His Highness the Maharaja of Mysore, Muzrai, dated 27th June 1911.

No. 3243-6—Muz. 508-09-1, dated Bangalore, 27th June 1911.

Order.—Government has for some time past observed that the state of the Chamarajendra Sanskrit College in Bangalore is not satisfactory. The institution does not profess to train up candidates systematically for the Mysore Vidwat or other public examinations and has succeeded only occasionally in passing one or two students through the courses prescribed for the examinations of His Highness the Maharaja's Sanskrit College of Mysore. It is difficult to gauge exactly the value of the work done in the institution each year.

2. Instruction in Sahitya and other branches of Sanskrit learning is imparted to such as choose to attend the Patasala; but the students do not stay in the College long enough to attain some appreciable degree of proficiency; and taken all together, work in the College is not conducted on a well-devised plan in a systematic manner.

3. The backward condition of the institution is, to a great extent, to be attributed to the well-known fact that mere Sanskrit learning according to the old methods no longer attracts students in any appreciable number, owing to the difficulty of turning it to practical account in after-life. It is therefore considered expedient to recast the scheme of studies in such a manner as to provide for a study of the elementary subjects usually taught in ordinary schools either in English or in Kannada along with the study of Sanskrit as at present.

4. Government are therefore pleased to direct that, with effect from 1st July 1911, the necessary classes be opened and all other arrangements made in the Chamarajendra Sanskrit College at Bangalore for training up students for the Mysore Lower Secondary Examination with Kannada as the compulsory language and English and Sanskrit as the optional subjects.

READ—

Para 2 of the Rules promulgated in Government Proceedings No. 841-4—4133-6 (P. W.), dated 1st August 1903, fixing the original scale for the maintenance staff of the general Cauvery Power Scheme Establishment.

(2) Government Proceedings No. 759-61—5266-8 (P. W.), dated 8th August 1908, sanctioning the revised scale of establishment for the Bangalore Power and Lighting Scheme.

(3) Government Proceedings No. 1103-5—7513-5 (P. W.), dated 1st December 1908, sanctioning the scale of establishment for the Mysore Lighting and Power Supply Scheme.

(4) Government Proceedings No. 658-60—5854-6 (P. W.), dated 7th August 1909, sanctioning the revised scale of establishment for the Chief Electrical Engineer's office.

(5) Chief Electrical Engineer's letter No. 3967, dated 29th October 1910, submitting for sanction proposals for the re-organization of the establishment employed on the Cauvery Power Scheme, and the P. W. Secretary's Note thereon No. 10, dated 20th February 1911.

No. 248-51—C. P. S., DATED BANGALORE, 30TH JUNE 1911.

ORDER THEREON.—The proposals as submitted by the Chief Electrical Engineer show a net saving in the charges for establishment of Rs. 1,118 per mensem. The Comptroller, Public Works Accounts, considers, on the other hand, that they involve an increase of Rs. 532. The difference is due to the fact that the latter estimate excludes from consideration the pay of two imported officers on Rs. 900 and Rs. 750 who have left the service and whose places have been filled by local officers.

2. The object of the proposals are:—

(i) To systematise the progressive rates of pay by fixing the rate of increment;

(ii) To fix uniform rates of pay for the same class of officers in the several sections:

(iii) To lay down a numerical scale for Work Establishment and delegate discretionary power to the Chief Electrical Engineer for making appointments and changes within the sanctioned money limit.

3. The Secretary, Public Works Department, and the Comptroller, Public Works Accounts, accept the proposals in the main and submit them with their remarks and suggestions for the sanction of Government.

4. After careful consideration, the Government of His Highness the Maharaja are pleased to accord sanction to the Re-organization Scheme with effect from 1st January 1911, subject to the following modifications:—

(i) *Assistant to the Chief Electrical Engineer.*—The pay proposed is Rs. 350-50-600. The annual increment of Rs. 50 recommended should be made biennial.

(ii) The pay of the General Electric Inspector (a new appointment) is fixed at Rs. 250-20-350 instead of Rs. 240-20-400 recommended.

(iii) Instead of higher rates of pay, *viz.*, Rs. 200-10-250 and Rs. 75-5-100 recommended for the Chief and Store Accountants, they be given local allowances of Rs. 50 and Rs. 25 respectively in addition to their grade pay in the Public Works Department. The former may generally be a first grade P. W. Accountant deputed from the Comptroller's office.

(iv) Since there are at present three Store-keepers attached to the three Sub-stations at Bangalore, the necessity for the creation of an additional Store-keeper's post for the Superintendent, Bangalore Power and Lighting, requires further explanation, pending which the proposal is allowed to stand.

5. Government are also pleased to extend to the employees of the Cauvery Power Scheme the benefits of State Life Insurance and Family Pension. Insurance will be optional in their case as their appointments are technically of a temporary nature.

Proceedings of the Government of His Highness the Maharaja of Mysore,

6. A statement showing the existing and the revised scale as now sanctioned is attached.

7. As several changes have taken place in the nominations proposed for the different appointments since the submission of the proposals, the Chief Electrical Engineer is requested to submit for separate orders of Government a consolidated statement showing the names of all members on the temporary (as distinguished from Work) establishment, with their salaries as they stood before and will stand after the re-organization, together with remarks giving reasons for promotion in each case.

8. Government understand that no continuous record is at present maintained showing the manner in which each officer has performed his duties in the past. It is desirable that the Chief Electrical Engineer should arrange for the punctual submission of half-yearly qualification reports of all officers and subordinates drawing a pay of Rs. 100 and above. Similar reports in the case of officers drawing less than Rs. 100 should be prepared, or called for simultaneously and recorded in the Chief Electrical Engineer's office. The report for the half-year ending 30th June 1911 should reach Government on or before the 21st of the following month.

9. The Chief Electrical Engineer is also requested to submit at a very early date proposals for the systematic recruitment and training of young men, so that there may not be any dearth of hands when vacancies occur and responsible appointments have to be filled.

SECTION 2—COURTS

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR JUNE 1911.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	J 3343-4—Cts 249-10 1	1	Regtr, Chief Court, and Dy Comr, Mysore, for communication to the R A Member	With reference to the revision of the Chief Court Rule of Practice relating to the submission of calendars of cases tried by Magistrates, observes that Rule (8) of the new Rule of Practice provides for important cases requiring notice by the Chief Court, being submitted to that Court by the Sessions Judges and that the practice regarding the submission of calendars of 2nd and 3rd Class Magistrates has not been altered by the recent rule, which does not do away with any of the provisions necessary to ensure the Chief Court's supervision and control of the Criminal Administration
2	J 3351-3—Cts 226-10 2	1	Dt Magte, Govt Advocate and Regr, Chief Court	Requests the Government Advocate to prefer an appeal to the Chief Court against the order of acquittal of one Rama passed by the Sessions Judge, Mysore Division, in Criminal Appeal No 36 of 1910-11, against the judgment of the City Magistrate, Mysore, convicting the said accused of the offence of theft
3	J 3356-8—Cts 267-10-2	2	Regr, Chief Court, Rev Comr, and Dy Comr, Kolar	Approves of the action of the District Magistrate of Kolar, in having directed the Amildar of Kolar to take cognisance, until further orders, of all cases triable by a 2nd Class Magistrate and arising in the Kolar Taluk
4	J 3369—Cts 256-10-6	5	Dy Comr, Kadur	Intimates the issue of an extradition warrant to the District Magistrate of South Canara for the surrender of Pakku Songa, accused of house-breaking and theft to the Treasury Assistant Commissioner and 1st Class Magistrate, Chikmagalur
5	J 3374—Cts 277-10-2	6	Compiler, *Mysore Gazette*	Notifies the investiture of Mr Simon Reuben B A, Amildar and 2nd Class Magistrate, Mudgere, with the power to try cases falling under the Breach of Contract Act, 1859

7	J 3380—Cts 262-10-2 ...	9	Dt. Magte., Hassan ...	Observes that the order of acquittal of Seshagiri Rao, passed by Mr. C. Devaraj Urs, Assistant Commissioner and 1st Class Magistrate at Hassan, in Criminal Case No. 14 of 1910-11, on the file of his Court, is not a fit one for an appeal being preferred to the Chief Court against it.
8	J 3384—Cts 220-10-2 ...	10	Dy. Comr., Kadur ...	Requests him, at the instance of the Madras Government, to furnish for communication to the Court of Wards, a half-yearly report on the health, education and condition of the minors of the Thummajammal's Estate.
9	J 3426-8—Cts 224-10-2 ...	12	Dt. Magte., Bangalore, Comptr. to Govt. and Public Prosecutor, Bangalore Dvn.	Sanctions a bill for Rs. 117, due to Mr. K. R. Sesha Iyengar, B.A., B.L., for conducting the prosecution of Puttegowda and others committed to the Chief Court Sessions in Criminal Case No. 137 of 1909-10, on the file of the Assistant Commissioner and 1st Class Magistrate, Closepet Sub-Division; and requests the Comptroller to withhold a proportionate remuneration out of the Public Prosecutor's salary, for the eight days during which the case lasted, since Mr. Sesha Iyengar had to be appointed as a Special Public Prosecutor at the request of the permanent Public Prosecutor, who was reported to have been engaged by the defence previous to his appointment as Public Prosecutor.
10	J 3433—Cts 180-10-12 ...	14	Mily. Secy to H. H. the Maharaja	Intimates that arrangements for the extradition of the deserter driver Abdulla Baig of the Imperial Service Troops, who is now reported to be in Ceylon, cannot be made since desertion is not an offence in respect of which extradition can be granted under the law in force in Ceylon.
11	J 3450-1—Cts 278-10-2 ...	16	Dy. Comr., Chitaldrug, and Comptr.	Authorizes the employment of a pleader to conduct execution proceedings to recover the institution fee of Rs. 150 due to Government, from one Chennappa, defendant in Original Suit No. 616 of 1908-09, on the file of the Munsiff of Chitaldrug, and sanctions an advance of Rs. 15 for the initial expenditure in this connection.
12	J 3457—Cts 231-10-2 ...	16	Regr., Chief Court ...	Forwards for the information of the Judges of the Chief Court and for communication to the prisoner Kapini, Respondent in Criminal Appeal No. 96 of 1909-10, on the file of the Chief Court, undergoing sentence of transportation for life in the Bangalore Central Jail, a copy of the order passed by His Highness the Maharaja on his Memorial reducing the sentence to one of ten years' rigorous imprisonment.
